solutions for professional cleaning

UNIK LIMPIEZA PROFESIONAL presents its industrial cleaning line with an innovative range of products for the catering, residential, healthcare, educational and commercial sectors.

With a commitment to excellence and innovation, we offer a wide range of professional products designed to meet the needs of various industries and sectors. Our products are known for their exceptional quality at very competitive prices, strengthening the confidence of businesses to carry out their activities.

Quality is our hallmark.

At UNIK PROFESIONAL we believe that quality is paramount. We take pride in manufacturing products that are designed to deliver exceptional performance. Wherever you look, from the raw materials we use to the rigorous quality control processes employed, every step is geared towards ensuring that our products meet the highest standards.

MDD solutions

INVESTIGATION

We research, develop and manufacture what you need.

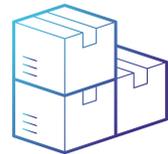

In times of crisis, the final consumer looks for products with characteristics and quality similar to the manufacturer's brands, but at prices that adapt more and better to their financial situation, increasingly choosing the so-called private labels or "distributor brands" (MDD). UNIK PROFESIONAL not only produces its own household cleaning and personal hygiene items. We also develop and/or package products for other companies or distributors.

MANUFACTURING

We don't just make products, we build your business.

At UNIK PROFESIONAL we research, design, develop and manufacture. We have our own product formulations, but we adapt to the formulation that our client is looking for, putting all our effort into finding the best solution to satisfy their needs and developing a product of the highest quality at an unbeatable price. Our research and development departments are at your entire disposal.

PACKAGING

We adapt the product to your needs.

We are capable of packaging your product and your brand: We have 15 packaging lines for different products of 5, 10, 15, 20 and 25 liters. We also have 15 blowing lines in which we generate our own containers, with the capacity for change, reaction or large manufacturing. We can generate more than 20 different containers in the formats of 275 ml, 500 ml, 750 ml, 1000 ml, 1500 ml, 2000 ml, 3000 ml, 4000 ml and 5000 ml.

we are export experts

We find out where we are needed and export our products to any place.

The key to our success lies mainly in the close contact we maintain with our customers. Casa Kiriko continues to succeed, because we are able to respond promptly to our clients' needs and expectations: Our products are always in stock which means that we can take any order at any time. In just one week we execute and deliver your order.

WHAT WE OFFER YOU

- High responsiveness
- Strict load control
- Strategic Solutions
- International presence in more than 30 countries
- Secure transfer
- A true partner for your business

Kitchens

A wide range of products for cleaning industrial kitchens, manual detergents and dish-washers, polishes and high-quality concentrated grease removers with a high cleaning performance for all types of water, both hard and universal.

Kitchens

HOTELS · RESTAURANTS · COLLECTIVE RESTORATION · RESIDENCES · SCHOOLS · CLEANING COMPANIES

CONCENTRATED MANUAL DISHWASHING DETERGENT

Concentrated dishwashing detergent. High foaming power suitable for cleaning crockery, glassware, pots and pans and all types of kitchenware. Removes grease and dried on food, making rinsing easier without streaks. Universal use in all kitchens.

EAN 13: 8411878210118

EXTRA CONCENTRATED HIGH FOAM MANUAL DISHWASHING DETERGENT

Extra concentrated dishwashing detergent. High foaming properties. Suitable for cleaning crockery, glassware, pots and all types of kitchenware. Excellent cleaning properties, perfectly removing grease and oil from utensils. Universal use in all kitchens.

EAN 13: 8411878310115

AUTOMATIC DISHWASHING DETERGENT (HARD WATER)

Alkaline liquid detergent for mechanical dishwashing. Highly concentrated and specially formulated not to foam. Suitable for use in cycle dishwashing machines and dishwashing tunnels. Excellent grease removal and washing results in all types of grime. Contains a blend of limescale inhibitors and caustic alkalis to remove grease and dried on food. Its active sequestering agents prevent limescale formation in very hard water conditions, keeping dishes and dishwashers free of limescale. Hardness range >20°dF.

EAN 13: 8411878802153

Kitchens

HOTELS · RESTAURANTS · COLLECTIVE RESTORATION · RESIDENCES · SCHOOLS · CLEANING COMPANIES

AUTOMATIC DISHWASHING DETERGENT (UNIVERSAL WATERS)

Alkaline liquid detergent for mechanical dishwashing. Highly concentrated and specially formulated not to foam. Suitable for use in cycle dishwashing machines and dishwashing tunnels. Excellent grease removal results and the blend of limescale inhibitors and caustic alkali to remove grease and dried on food. High complexing properties in medium hard water. Prevents the formation of limescale deposits in dishwashing machines and dishes. Hardness range 0 -20°dF.

EAN 13: 8411878902150

AUTOMATIC DISHWASHING RINSE AID (HARD WATER)

Rinse aid for mechanical dishwashing. Specially formulated for use in a wide range of dishwashing machines. Fast drying thanks to its unique combination of low foaming surface active agents. Streak free and residue free results. Low foaming action. Suitable for all materials that can be washed in dishwashing machines (crocery, porcelain, glass, stainless steel, plastics, etc.). Hardness range >20°dF.

EAN 13: 8411878302127

RINSE AID FOR MECHANICAL DISHWASHING (UNIVERSAL WATERS)

Rinse aid for mechanical dishwashing. Specially formulated for use in a wide range of dishwashing machines. Fast drying thanks to its unique combination of low foaming surface active agents. Streak free and residue free results. Low foaming action. Suitable for all materials that can be washed in dishwashing machines (crocery, porcelain, glass, stainless steel, plastics, etc.). Hardness range < 20 °dF.
